Washington, Sept. 23.—The state department has been making inquiries for assection time to assectian the whereabouts of Harry Tellecton, son of R. W. Tollecton, of Toledo, O., and Prof. Holmes, of Meadville, Pa., who arrope on the way to enter a Berlin university. It was feared that the young men had been captured by hylgands, but a telegram received Tuesday from Mc. Tollecton at Toledo an mounces that he has heard from his non attention to the people here. They accept it as indicating that the energetic effort to aurround the disease and the situation is steadily improving. They believe that the chances are growing more remote every day of epidemic, and that there is little likelihood that the disease will assume before cold weather a much more virulent form than at present.

GIRARDVILLE, Penn., Sept. 24.-At Girandville, Penn., Sept. 28.—At least nine men received faial injuries and possibly two-score others were more or less seriously wounded in a hicody riot here late Sunday night and early Monday morning. The tettle was the outcome of a quarrel over the Hazleton troubles. Thirty-six men are known to have been wounded and about fifty more are being secreted by their friends who fear that they will be sent to jail. Twelve of the cingleaders were irrought before Justice Ellas Klasluger and ten before Justice II. It Johnson. All were charged with II. II, Johnson. All were charged with assault with lutent to kill, housebreaking and rioting, and were held in heavy hall for court. Many more warrants have been lacked, but have not been

RECIPROCITY

May Foster Trade Between the United States, Mexico, Central America

And the West Indies—An Article by Joseph I's ismith, of the Bureau of the Amer-tean Republics, in the Forthcom-log Palictin of the Bureau.

NEW YORK, Seph 29.—Joseph P. Smith, director of the bureau of American republics, will have an article in the forthcoming balletla of the bureau outlining the extent to which in his opinion reciprocity can be applied untrade between the United States and Mexico, Central America and the West Indica. He shows the expansion of this trade through recent improved means of communication, by rail and by steumship, and concerning Mexico, says:

The nble and progresalve President of Mexico, Gen. Porfiri-Diaz, has frequently exhibited the friendliest spirit toward the United procity. The administration of President McKinley can be assumed to be equally interested in the removal of obstacles to trade development, for it is announced the president will shortly Issued a proclamation granting the same exemptions from discriminating duties to goods brought into the United States in Mexican vessels as those granted by Mexico to goods taken into Mexican ports in vessels of the United States. tars sang together and all the sons of God shouted for juy," the curth heard the echo. The cloud on which the angels atool to celebrate the creation was the birthplace of song. The stars that glitter at night are only so many keys of celestial pearl, on which thed a fing-era play the music of the spheres. Inte nature la full of God'a stringed and wlad instruments. Sllence Itselfng the leaves, insect humining imer air, the rush of billow npon beach, the ocean far out sound-ing its everlasting psalm, the bulse-link on the edge of the ferest, the quali whiatling up from the grass, are music.
While visiting Blackwell's Island I heard, coming from the window of the natie asylum, a very sweet song. It mag by one who had lost her reason, and I have come to believe that even the deranged and disordered elents of unture would make music to our ear, if we only had nenteness enough to listen. I sappose that even the sounds in nature that are discordant and repulsive make harmony la God's ear. You know that you may come so near to an orchestra that the sounds are painful instead of pleas-urable, and I think that we stand so pear devastating storm and frightful whirlwlnd, we can not hear that

of the spirits above a music as com plete as it is tremendous.

I propose to speak about sacred nusic, first showing you its importmusic, first showing you its importance and then stating some of the ob-

I draw the first argument for the im-ortance of sacred music from the fact hat God commanded it. Through Pani He tells us to admonish one another in sealms and hymna and spiritual songs: paslins and hymna and spiritual wings, through David lie eries out: "Sing ye to God, all ye kingdoms of the varth." And there are handreds of other pas-sages I might name, proving that it is is daty to pray. Indeed, I think Blule to sing than there are to pray God not only asks for the human voice. but for the Instruments of music. He asks for the cymbal and the harp and mpet. And i suppose that in days of the church the harp, e lute, the trumpet and all the instru-ents of innsie that have given their will be brought by their masters and laid down at the feet of Christ and then sounded in the church's triumph on her way from anffering into glury. "Praise ye the Lord!" Traise Illm with your voices! Praise Ilim with stringed in-

truments and with organs.

I draw another argument for the limportance of this exercise from the impressiveness of the exercise. You know something of what secular music has achieved. You know it has made Italimpression npon governments, npon laws, npon literature, npon whole gen-erations. One inspiring national air is worth 30,000 men as a standing army. There comes a time in the battle when one bugle call is worth a thousand In the eaglier part of our civil war the government proposed to economize in bands of music, and many of them were sent home; but the get erals in the army sent word to Wash-"You are fulling back and fallng back. Why should we rob the programmes of worldly gayety when we have so many appropriate soags and tames composed in our own day, as well as a magnificent inheritance of charehnody which has come down fra-ls with the devotions of other gen-erations—tines no more worn out than when our great-grandfathers climbed up on them from the church pew up on them from the church pew to glory? Dear old souls, how they used to singl And in those days there were certain tunes married to certain hymns, and they have lived in peace n great while, these two old people, and we have no right to divorce them.
